## PROJECTS

### E-Commerce Website (React) | Jan 2025 – Mar 2025

Developed a responsive e-commerce website using React.js featuring product listings, shopping cart functionality, and user-friendly UI. Implemented state management, routing, and component-based design to ensure a seamless shopping experience across devices.

### Todo-Webapplication

- Built a responsive To-Do application using React.js with features like task creation, editing, deletion, and status tracking. Utilized component-based architecture and React state management for efficient and dynamic task handling across different screen sizes.

### Resume-Builder

- Created a responsive Resume Builder web app using HTML, CSS, and JavaScript. Users can input personal details through forms and generate a downloadable, printable resume. Emphasized clean UI, form validation, and dynamic content rendering for user convenience.

### Personal Portfolio-Website | Apr 2023 – Jun 2024

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and contact information. Implemented responsive design, smooth navigation, and modern UI to create a professional online presence
